ORGANISATION VALUES

OUR MISSION AND VISION

Eurodiaconia is a network of over 60 churches and Christian organisations that provide social and health care services and advocate for social justice. Together we work for just and transformative social change across Europe, leaving no one behind.

Driven by our Christian faith, our vision is of a Europe where each person is valued for their inherent God-given worth and dignity and where our societies guarantee social justice for all people, including the most vulnerable and marginalised.

WHO WE ARE

Eurodiaconia is a European network of churches and Christian NGOs providing social and healthcare services and advocating social justice. Together, our membership represents the needs and unique experiences of over 60 national and regional organisations across 33 countries and regions in Europe, representing over 30,000 health and social service providers with more than 1 million employees. Diakonia is Greek for service, and in the biblical sense, this means service for and with people in need.

Our story began in 1997, when several diaconal organisations in Europe came together to tackle the issues and policies of the European Union and their impact on diaconal organisations. Since then, we have been registered as an NGO in Strasbourg, France, and transferred our legal entity to Belgium in 2008 as a not-for-profit international association (association internationale sans but lucratif).

WHAT WE DO

Strengthen Diaconal Social Services: Strengthen diaconal service provision so as many people as possible have access to affordable, high quality and accessible social and healthcare services.

Social Justice: Fight for social justice by addressing the root causes of inequalities, poverty and exclusion.

Network Identity: Building a strong network with a clear identity.

HOW WE WORK

We are a leading European network of diaconal social service and health care providers dedicated to fostering inclusion, care, and empowerment while promoting dignity for all. Through Praxis, Advocacy, and Identity, we drive positive change.

Our network meetings facilitate knowledge sharing and collaboration among members, partners, and experts, empowering them to shape social policies and enhance services through practical action.

We tackle critical issues like marginalisation, social exclusion, healthy ageing, elderly and long-term care, migrant and Roma inclusion, advocating for a more inclusive and equitable society at European and national levels.

Reflection on the role and identity of diaconia and Christian social practice in contemporary Europe is an integral part of our work. By adapting to evolving societal needs, we strive to make a meaningful impact and improve lives. Members are churches, non-statutory welfare organisations and NGOs in Europe rooted in the Christian

OUR MEMBERS

Our members are churches, non-statutory welfare organisations and NGOs in Europe rooted in the Christian faith within the Reformation, the Anglican and the Orthodox traditions. For more information on our members, please visit the [Eurodiaconia website](#).

Our members are the foundation of Eurodiaconia, and they play a pivotal role in shaping our organisation. They set the strategic direction at our Annual General Meeting, while the Elected Supervisory Board develops our vision. Together, we work to influence EU policies that impact the most vulnerable. Through reflection and partnerships, our members enhance their methods and advocate for socially excluded people. Solidarity, equality, and justice unite us, driving our collective efforts to create positive change and improve lives.

WHY BECOME A MEMBER OF EURODIACONIA?

As a member of Eurodiaconia, you gain access to valuable resources and opportunities for your daily work. Our dynamic network focuses on putting the people you serve and your services at the centre of our initiatives and programme. Join our community of motivated diaconal actors to strengthen your work, contribute to the dialogue, and enhance diaconal efforts across Europe.

We Advocate for Social Justice

Through our policy work in Brussels, Eurodiaconia advocates for social justice and empowerment by linking members' experiences and concerns with EU policies, representing the voice of social and health care service providers through a people-centred approach to policy-making and economic governance.

We cover various topics, such as extreme destitution, access to essential services, migrant inclusion, Roma inclusion, elderly and long-term care, quality social services, greening social services, and economic architecture in Europe. We also advocate for our members' interests in advancing sustainable, adequate, predictable, and accessible EU funding that addresses social cohesion and inclusion.

Your input as a member is crucial for our policy work, ensuring the voices of vulnerable populations are heard.

We Empower Members to Understand and Access EU Funding

Our goal is to empower diaconal organisations and amplify their impact on social development across the continent.

The Social Europe Academy is Eurodiaconia's capacity-building programme, which builds the knowledge, skills, and attitudes of members on relevant EU policy developments and funding programmes. We support members in accessing European funding through tailor-made trainings, members' briefings, project information data-gathering, and project partnerships. We also facilitate matchmaking between members to form project consortia and provide timely information through newsletters and notifications.

We Facilitate Opportunities for Mutual Learning and Cooperation

Our members provide crucial services and social innovation and have gained expertise through their rich and long experience in social economy, cohesion, and inclusion. At the same time, European society is rapidly changing, with new needs and social demands alongside technological developments that necessitate innovation and new ways of working. We provide spaces and opportunities for members to learn from each other and explore ways to adopt, scale-up, and innovate social services and health care provision.

We Support Diaconal Identity in a Changing Context

Diaconia in Europe today blends traditional care values with modern social advocacy, striving to promote human dignity, social justice, and solidarity across increasingly diverse societies. Eurodiaconia supports members in retaining their diaconal identity in an ever-changing context such as pressures on funding, sustainability of services and having a much more diverse staff profile.

Additionally, we support academic and theological research in diaconia by looking into Christian churches' approach to social action and justice and how faith shapes social engagement such as through the "International Society for the Research and Study of Diaconia and Christian Social Practice" (ReDi) and through close cooperation in the publication of the academic journal "Diaconia: Journal for the Study of Christian Social Practice".
